

MAKE YOUR HOLIDAY CHARITY EVENT SHINE WITH CORPORATE LEARNING INSTITUTE!

Let Corporate Learning Institute wrap-up your holiday event with a “build it for charity” workshop!

Corporate Charity Teambuilding Events are a great way to build teams and reinforce the importance of giving back to the community. These donations can be arranged with the local or national organizations or your choice, or CLI can find one for you.

Choose from the following workshops in which teams compete against each other to earn the materials needed to complete their charitable gift. Each participant also designs and creates a personalized motivational card for the recipient of the gifts.

Build-A-Bike/Build-A-Wagon

Teams compete to earn parts for their toys and then to assemble bicycles or wagons to deliver to needy children. We can also combine the Build-A-Wagon session with a special competition so that teams can also earn toys to place inside each wagon they build.

Team Care

Teams design a care package assembly process and then implement the process to create as many care packages as possible within the time limit. These care packages are composed of personal hygiene items, small toys, or items needed by the specific Charity Organization.

Build-A-Wine Basket

Working in small teams, participants first design a wine basket assembly process and then implement the process to create as many wine baskets as possible within the time limit. These wine baskets will then be auctioned off by the Charity Organization.

Holiday Card Factory

This is a great option for organizations with a tight budget! The large group is divided into smaller teams, or card companies, for which they create a company name and logo and create as many holiday cards as possible in the allotted time.

Pricing

All events come complete with music, decorations, MC and staff at a great savings for the holiday season! Contact us for special pricing!
